Professional Summary

A dedicated and skilled Full Stack Web Developer with a strong background in the MERN stack, including solid experience in designing, implementing, and deploying web applications. Proven ability to adapt quickly to new technologies and industry trends, ensuring seamless integration of cutting-edge innovations into projects. Seeking a challenging role that values creativity, collaboration, and fosters continuous professional development.

Experience

Full Stack Developer

Digiblocks LLC, Bengaluru (Remote)

Sep 2023 - Present

Key Responsibilities :

- Involved in the complete development lifecycle, from concept and design to testing, deployment, and maintenance.
- Built robust APIs and services using Node.js and Express.js, integrated with MongoDB for data storage.
- Managed deployment pipelines using tools like Git, BlueHost, C-Panel and Hostinger to ensure seamless deployment and scalability.
- Developed **knitsilk.com**, an e-commerce platform, using MERN stack with a team of two. Demonstrated proficiency in full-stack development and collaboration.
- Crafted **digiblocks.tech**, a quality certificates platform, employing MERN stack with a two-member team.

Projects

CaloFit

Track your health online. Monitor nutrition, fitness, and well-being. User-friendly interface, comprehensive database. Track meals, water, exercises, health metrics. Visual progress, premium plans for coaching and meal planning. Improve your health with CaloFit.

Features :

- Login | Sign Up
- Comprehensive Nutrition Tracking
- Customizable Diary
- Exercise Tracking
- Insights and Analysis
- Admin Dashboard

Tech Stack : React | Redux | Node.js | MongoDB | Express.js | Chakra UI

Areas Of Responsibility :

- Developed and implemented secure backend functionality for login, signup, and customizable diary routes.
- Designed and built front-end components for blogs and an About page.

A collaborative project built by 5 team members in 5 days.
